

## **SULFATASES AND METHODS OF USE THEREOF**

### **ABSTRACT OF THE DISCLOSURE**

Novel sulfatases and polypeptides related thereto, as well as nucleic acid compositions encoding the same, are provided. The subject polypeptides and nucleic acid compositions find use in a variety of applications, including various diagnostic and therapeutic agent screening applications. Also provided are methods of inhibiting tumor-induced angiogenesis and methods of treating disease conditions associated therewith, particularly by administering an inhibitor of a subject sulfatase.
